

# 10 Years Of Health Services To Merced County Residents

## An Invitation

Please join us in celebrating our 10th Anniversary.  
It all began at the Merced General Hospital in 1972.  
with a part-time doctor and a total staff of 6.  
We saw about 1500 patients that year.

In 1982, with Health Centers in Merced, Los Banos, Planada,  
we will have over 40,000 patient visits.  
Our staff of 50 includes 6 physicians, 2 dentists, nurses, nutritionists,  
computer keypunch operators, allied health personnel, educators,  
and support administrative staff.

We have done a lot but there's so much more to get accomplished.  
With resources reduced in the years ahead,  
we all must begin working together.  
Let's do it on October 25th.

Monday October 25th  
1:30 p.m. to 5:00 p.m.

**Merced Family Health  
Centers, Inc.**
