Lamprey Health Care has welcomed Mr. Gregory White as its next Chief Executive Officer (CEO). Mr. White comes to Lamprey Health Care after an intensive search process to replace CEO Ann Peters who recently retired after 34 years. For over two decades Mr. White has been committed to the mission of Community Health Centers, most recently serving as Chief Financial Officer for the Lowell Community Health Center, in Lowell, MA. Previously, he had served as the CFO of Manchester Community Health Center. Mr. White is a certified public accountant and attended Babson College where he received a Bachelor of Science in Accounting.

Mr. White has been involved in numerous non-profit agencies in the Southern NH including serving as Board Treasurer for The Way Home in Manchester and as a volunteer EMT and staff officer with the Milford Ambulance Service. Mr. White is a life-long resident of Milford, where he resides with his wife Michelle and their two children.

Lamprey Health Care is New Hampshire's oldest and largest nonprofit community health center with medical offices in Newmarket, Raymond and Nashua. The organization provides primary care and preventive health services to individuals of all ages and incomes, regardless of their ability to pay. Lamprey Health Care has earned national and regional acclaims for its outstanding health outcomes, grass roots support and innovative, efficient delivery of quality health care.

The National Committee for Quality Assurance has recognized all three of Lamprey Health Care's centers as Level III Patient Centered Medical Homes, the highest level possible.
